**MEMBERS PRESENT:** Melvin L. Boone, Sr.  
Freeda Cathcart  
Rafael Saenz  
Cynthia Warriner  
Sheila K. W. Elliott  
Jody Allen  
Ellen Shinaberry

**STAFF PRESENT:** Caroline D. Juran, Executive Director  
J. Samuel Johnson, Jr., Deputy Executive Director  
Cathy Reiniers-Day, Deputy Executive Director  
James Rutkowski, Assistant Attorney General  
Beth O'Halloran, Individual Licensing Manager

#### PUBLIC HEARING FOR SCHEDULING OF CERTAIN CHEMICALS

Mr. Logan called for comment to consider placement of the following chemical substances into Schedule I:

Classified as research chemicals:

- 6-ethyl-6-nor-lysergic acid diethylamide (other name: ETH-LAD)
- 6-allyl-6-nor-lysergic acid diethylamide (other name: AL-LAD)

Classified as powerful synthetic opioids:

- N-[1-[2-hydroxy-2-(2-thienyl)ethyl]-4-piperidinyl]-N-phenylpropanamide (other name: beta-hydroxythiofentanyl)
- N-(2-fluorophenyl)-N-[1-(2-phenylethyl)-4-piperidinyl]-propanamide (other names: 2-fluorofentanyl, ortho-fluorofentanyl)
- N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl]-2-propenamide (other name: Acryl fentanyl)

Classified as cannabimimetic agents:

- 1-pentyl-N-(phenylmethyl)-1H-indole-3-carboxamide (other name: SDB-006)
- Quinolin-8-yl 1-(4-fluorobenzyl)-1H-indole-3-carboxylate (other name: FUB-PB-22)

Classified as benzodiazepine:

- Flubromazepam

If approved by the Board of Pharmacy, the placement of these substances in Schedule I in the Drug Control Act shall go into effect 30 days following publication of the proposed regulation and remain in effect for a period of 18 months. The chemicals will then be de-scheduled unless a general law is passed by the General Assembly placing the chemicals into Schedule I.

PUBLIC COMMENT:

Scott May, Chemical Program Manager at the Department of Forensic Science (DFS) provided information regarding the 8 chemicals it has identified for the Board's consideration to place into Schedule I. Two of the chemicals are research chemicals, three are powerful synthetic opioids, two are cannabimimetic agents, and one is a benzodiazepine with no accepted medical use in the United States. The chemicals have been identified in the DFS labs across the Commonwealth.

ADJOURN:

The public hearing adjourned at 9:11am.
